

# BRACKENRIDGE ESTATE

# ENVIRONMENTAL CONTROL OFFICER REPORT

- Report: #5
- Period: 1 September to 30 September 2024
- Date: 30 September 2024
- Author: Kellyn Whitehead, MSc / ECO Brackenridge Estate

## TABLE OF CONTENTS

Overview	3
Fire management	4
Wildlife	8
Invasive Alien Control	9
Appendix A	11
Appendix B	13

#### **OVERVIEW**

The aim of this report is to document the deliverables agreed upon between the Homeowners Association (HOA), the Environmental Management Committee (EMC) and the newly appointed Environmental Control Officer (ECO) to ensure the proper management of Brackenridge.

The report will be updated every month by the ECO, detailing the action plans for each deliverable, what has been achieved, what still needs to be completed and any recommendations for both estate management and homeowners.

All environmental management on the estate will be done in accordance with the Environmental Audit conducted by Professor Patricia Holmes in October 2023 and the updated Environmental Management Plan drawn up in October 2023.

Any new environmental concerns that are discovered during maintenance, or any changes found regarding the guidelines of the environmental audit, will be communicated in this report.

Any concerns or questions that homeowners may have in reference to environmental management can be addressed to either the General Manager or the ECO.

Boet Grobler, General Manager manager@brackenridge.co.za 044 533 6547 Kellyn Whitehead, ECO kellynwhitehead4@gmail.com 044 533 6547

### **ACTION POINT**: Prescribed burns.

**RELEVANCE**: Regeneration and maintenance of endangered Garden Route Shale Fynbos; help circumvention of wildfires.

**DELIVERABLES**: Invasive alien control, fire belt cutting, permits, fuel reduction, prescribed burn, mopping up.

• Please refer to EMP, page 9 - 12 for more details.

## Post-burn clean-up of Block 5 (1.68 ha).

The laying of the gravity feed pipeline in block 5 was completed in September, whereupon the area required to be re-assessed.

Unfortunately, due to unforeseen circumstances, the contractors laying the pipeline were forced to remove more clay and soil than that which we had previously envisaged, leading to greater disturbance of the burnt area.

The ECO along with the EMC and the Brackenridge Management team are in the process of developing an in-depth proposal to rehabilitate block 5. This proposal will include an option to those homeowners who look onto block 5 to become involved in the rehabilitation process.

A roller was hired from Coastal Hire to flatten out the area where a new path will run through block 5. The path runs alongside the pipeline to prevent further disturbance of block and also ensure there is easy access to the pipeline in need.

## FIRE MANAGEMENT

### Path marking in block 5.

## FIRE MANAGEMENT

### Path marking in block 5.

#### Post-burn clean-up of Block 6 (3.00 ha).

The ECO along with Steve Ritky examined Block 6 and established that more needs to be cut back and stacked in those areas still needing to be stacked burned.

This caused a delay in the stack burn. The Board of Trustees approved bringing in the Working on Fire team to undertake the remainder of the clearing and stacking. Once completed, a new burn date will be set.

Part of the clean-up in block 6 includes marking and upgrading all of the pathways. The upgrade takes cognisance of those areas more prone to being slipping hazards when wet by installing steps. There will also be the placement of one new bench.

The ECO will draw up plans for the upgrade and submit it to the Board of Trustees for their approval. Once approved, work will begin for the restoration of the pathways.

### WILDLIFE

The Brackenridge Tortoise group have had sightings of the tortoises, including our gentle giant, Number 5.

Number 30, which was rescued during the tortoise search before the prescribed burns, has been released and is doing well.

**ACTION POINT**: Control growth and spread of invasive plant species.

**RELEVANCE**: Restoration of native ecosystems.

**DELIVERABLES**: Invasive alien control, Integrated Fire and Alien Species Management Plan.

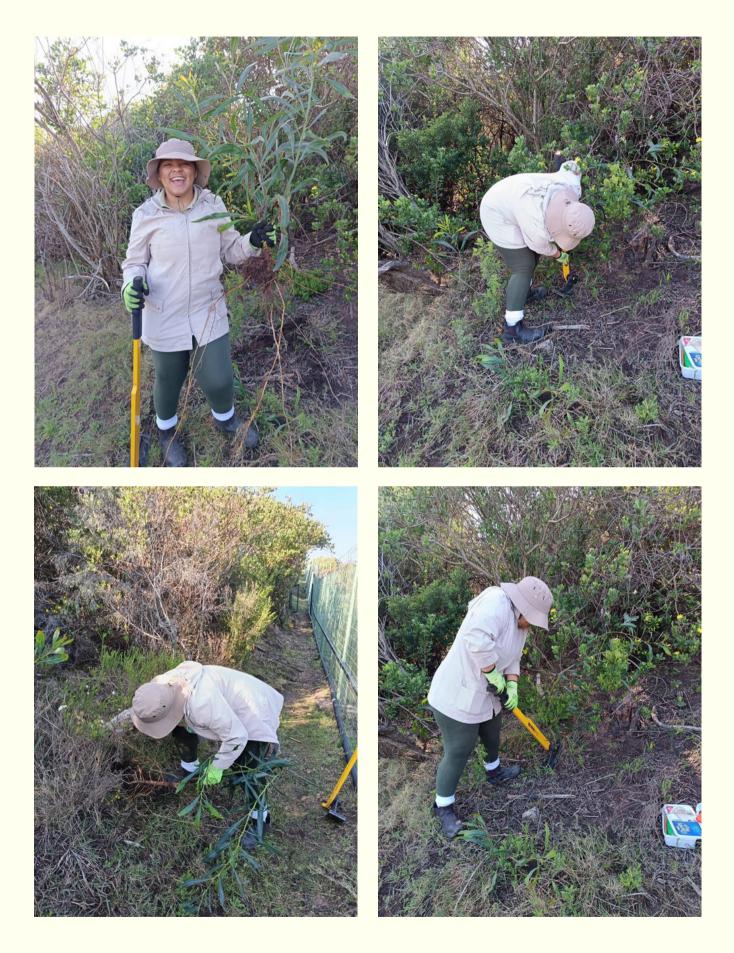

• Please refer to EMP, page 13 for more details.

The ECO, along with a volunteer, removed Port Jackson from a homeowner's property. Properties situated along the fence line in Protea Dale do have a number of Port Jacksons emerging, given that the bordering property to Brackenridge Estate have not cleared Port Jacksons from their property. It may be worth considering requesting the neighbouring property owners to undertake this important control of invasive species.

Eldred and his team continue to clear along the fence line, removing and chipping all invasive species they encounter during the clearing.

The Integrated Fire and Alien Species Management Plan is currently being developed by the ECO.

### Removal of alien invasives in Protea Dale.

# Appendix A

# Block 5 pre-burn plant species list

SCIENTIFIC NAME	COMMON NAME	COMMENTS
Acacia cyclops	Rooikrans	Invasive
Buddleja salciifolia	Sagewood	
Centella asiatica	Asian pennywort	
cf Carpobrotus	Sourfig	Awaiting ID
cf Gnidia	Cape saffron	Awaiting ID
cf Restio	True Cape reeds	Awaiting ID
cf Satyriium	Satyr orchid	Awaiting ID
Chironia baccifera	Christmas berry	Endemic to SA
Chloris gayana	Rhodes grass	
Cliffortia stricta	Staid Cape rose	Endemic to Fynbos
Colpoon compressum	Cape sumach	
Erica canaliculata	Hairy grey heather	Endemic to Fynbos
Eriocephalus africanus	Wild rosemary	Endemic to SA
Euryops virgineus	Virgin true-eye	Endemic to SA
Haemanthus sanguineus	Smooth bloodlily	Endemic to SA

# Appendix A

SCIENTIFIC NAME	COMMON NAME	COMMENTS
Helichrysum cymosum	Fume everlasting	Endemic to SA
Helichrysum foetidum	Stinking everlasting	Endemic to SA
Helichrysum petiolare	Silver everlasting	Endemic to SA
Hippia frutescens	Scrambling stinkals	Endemic to SA
Leucadendron salignum	Common sunshine conebush	Endemic to Fynbos
Metalasia acuta	Pointy blombos	Endemic to Fynbos
Metalasia pungens	Stink blombos	Endemic to Fynbos
Osteospermum monolifera	Bietou bush	Endemic to WC
Oxalis imbricata	Tile sorrel	Endemic to SA
Passerina corymbosa	Common gonna	Endemic to SA
Pinus sp.	Pine	Invasive
Podalyria burchelli	Hairy Cape sweetpea	Endemic to Fynbos
Selago canescens	Skinny bitterbush	Endemic to Fynbos
Selago corymbosa	Stiff bitterbush	Endemic to Fynbos
Seriphium plumosum	Common snake bush	
Sersia lucida	Blinktaaibos	

# Appendix B

## Block 6 pre-burn plant species list

SCIENTIFIC NAME	COMMON NAME	COMMENTS
Anthanasia dentata	Geel Blombos	Endemic to Fynbos
Aspalathus ciliaris	Fringe Cape gorse	Endemic to Fynbos
Asaragus asparagoides	Bridal asparagus	
Burchellia bubalina	Wild pomegranate	
Centella asiatica	Asian pennywort	
cf Anthospermum		Awaiting ID
cf Asteriodae	Daisy	Awaiting ID
cf Carpobrotus	Sourfig	Awaiting ID
Chironia baccifera	Christmas berry	Endemic to SA
Cliffortia stricta	Staid Cape rose	Endemic to Fynbos
Colpoon compressum	Cape sumach	
Cyrtanthus contractus	Common fire lily	
Diospyros dichrophylla	Poison star apple	
Erica canaliculata	Hairy grey heather	Endemic to Fynbos
Erica peltata	Shield heath	Endemic to Fynbos
Grewia occidentalis	Common cross berry	

# Appendix B

SCIENTIFIC NAME	COMMON NAME	COMMENTS
Halleria lucida	Tree fuchsia	
Helichrysum cymosum	Fume everlasting	Endemic to SA
Helichrysum foetidum	Stinking everlasting	Endemic to SA
Helichrysum petiolare	Silver everlasting	Endemic to SA
Hippia frutescens	Scrambling stinkals	Endemic to SA
Hypoxis villosa	Shaggy star grass	
Leucadendron salignum	Common sunshine conebush	Endemic to Fynbos
Metalasia acuta	Pointy blombos	Endemic to Fynbos
Metalasia pungens	Stink blombos	Endemic to Fynbos
Monopsis unidentata	Wild violet	Endemic to SA
Nidorella ivifolia	Oven bush	
Nidorella ulmifolia	Ulm vleiweed	
Osteospermum monolifera	Bietou bush	Endemic to WC
Oxalis imbricata	Tile sorrel	Endemic to SA
Oxalis purpurea	Purple sorrel	Endemic to SA
Passerina corymbosa	Common gonna	Endemic to SA

# Appendix B

SCIENTIFIC NAME	COMMON NAME	COMMENTS
Pinus sp.	Pine	Invasive
Plecostachys serpyllifolia	Petite-licorice	Endemic to SA
Podalyria burchelli	Hairy Cape sweetpea	Endemic to Fynbos
Psoralea axillaris	Violet-flash fountain bush	Endemic to SA
Rapanea melanophloeos	Cape beech	
Selago canescens	Skinny bitterbush	Endemic to Fynbos
Selago corymbosa	Stiff bitterbush	Endemic to Fynbos
Seriphium plumosum	Common snake bush	
Sersia lucida	Blinktaaibos	
Sideroxylon inerme	White milkwood	Protected
Struthiola hirsuta	Shaggy Cape spray	Endemic to Fynbos
Tarchonanthus littoralis	Coastal camphor bush	Endemic to SA
Tecomaria capensis	Cape honeysuckle	
Westringia fruticosa	Coastal rosemary
